### **Project Description**

This project is a proposal to widen and reconstruct Carbondale Road from approximately 600 feet west of the I-75 southbound ramps to approximately 500 feet east of the US 41/SR 3 intersection. The existing two-lane roadway would be widened to four lanes with a variable width median. As part of the project, the existing two-lane bridge over I-75 would be replaced with a four-lane structure featuring a 10-foot median and urban shoulders. Multilane roundabouts would be constructed at the ramp intersections and at the US 41/SR 3 intersection. Sidewalks will be included at select locations within the project limits. Proposed right of way would vary in the project corridor from 80 feet to 145 feet.
